### Introduction

Thank you for choosing a high quality product „MADE IN GERMANY“ from TW AUDIO.

VERA RFEX is an adapter kit for the rigging frame VERA RF300.

The features of this accessory kit are its uncomplicated quick handling, its unobstrusive look and its ratio in size and weight.

If you lend your product to another party, inform that party of the safety-related handling procedures and hand over this assembly manual. Additional copies of the manual can be obtained through TW AUDIO free of charge or downloaded directly from our website: [www.twaudio.com](http://www.twaudio.com)

## Introduction in the assembly manual

Strictly adhere to the instructions contained in this assembly manual which are marked as follows:

This symbol in combination with the signal word „Warning“ identifies a potentially hazardous situation. Failure to comply with this safety instruction can lead to serious injury or even death.

This symbol in combination with the signal word „Caution“ identifies a potentially hazardous situation. Failure to comply with this safety instruction can lead to light or moderate injury.

This symbol in combination with the signal word „Note“ identifies a potentially hazardous situation. Failure to comply with this safety instruction can lead to product damage.

This symbol in combination with the signal word „Tip“ identifies additional information or notes that will simplify working with TW AUDIO products on the basis of practical experience.

## Notes on the products

**Read manual  
before use!**

Before setting up the device, read the assembly manual carefully and keep this document in a safe place together with the VERA RFEX adapter kit.

## General information

Assembly manual: AM-VERA\_RFEX

## 1. Safety | Intended use

Please adhere to the following safety instructions to avoid risks when handling the adapter kit.

The VERA RFEX was developed for professional use in sound systems. The adapter kit may only be used by trained and qualified personnel.

Note the handling modes described in this assembly manual. Other uses are not permissible.

TW AUDIO shall not be liable for any damage that ensues from unintended use.

Check that the adapter kit is complete and that all parts are in good condition before mounting them.

The accessory kit contains specific screws and nuts. Do not use other screws or nuts as these can damage the threads and threaded inserts.

The VERA RF300 is only to be used with adapter kit VERA RFEX. Description for mounting is in the assembly manual. Other applications are not permissible.

All parts described in the manual (VERA RFEX right (pre-mounted), VERA RFEX left (pre-mounted), locking pins) are only to be used as described. Any other use is not permissible and may lead to injury and damage of the parts.

Any form of modifications of the elements is strictly prohibited. Risk of injury!

The rigging frame VERA RF300 and the adapter kit VERA RFEX are suitable for indoor and outdoor applications.

The VERA RFEX should be handled by qualified and trained personal only. Before every use the VERA RFEX has to be checked if it is ready for use.

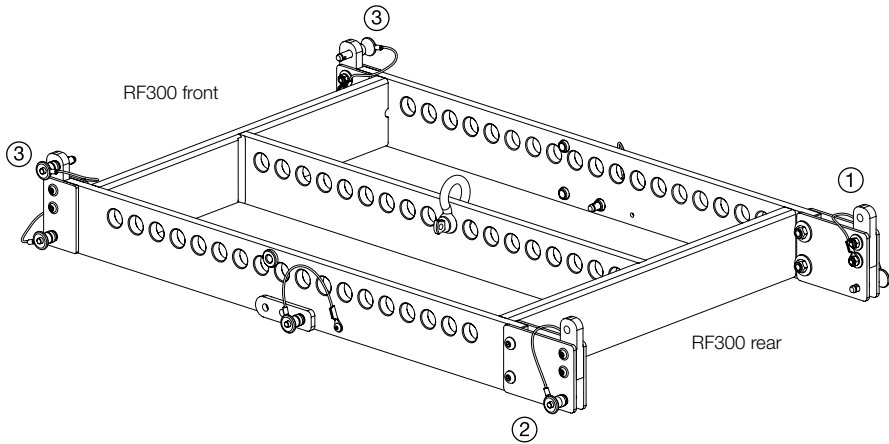

Do not use the VERA RFEX if any form of damage is visible.

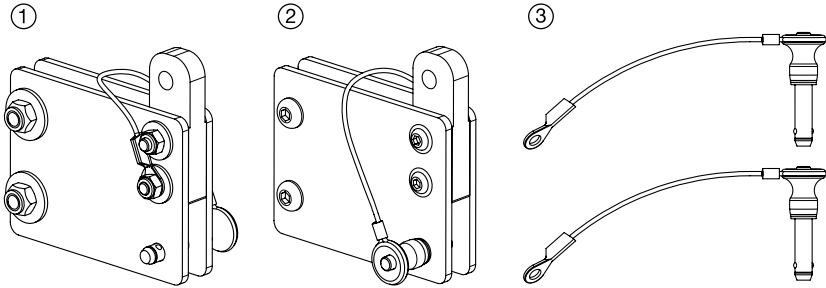

Please keep all mounting elements away from children! The small parts can easily be swallowed and lead to suffocation!

## 2. Overview

The graphic below shows rigging frame VERA RF300 and adapter kit VERA RFEX when completely fitted.

### 3. Purchased parts package

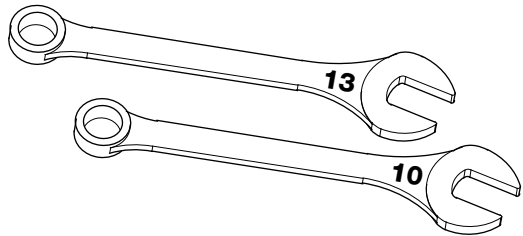

- 1. VERA RFEX right (pre-mounted)..... 1 pc
- 2. VERA RFEX left (pre-mounted)..... 1 pc
- 3. Locking pin (for mounting to VERA RF300 front)..... 2 pcs

Needed tools:

Wrench SW13,  
Wrench SW10.
